## 36th Annual Convention 2013

If you are trying to decide whether you should go to the convention, please keep these items in mind.

1. Early registration discount ends on May 1<sup>st</sup>. The prices will raise starting May 2<sup>nd</sup>.
2. For the U.S. Senepol breeders – you need a passport but not a visa.
3. Passport needs to be “active/legitimate” for at least six months after the convention.
4. It is not too late to get a passport – go to: <http://iafdb.travel.state.gov/>. Most Post Offices in the United States do passport processing
5. The cost for a passport is \$165.00. In today's world conditions it is a good idea to have a passport.
6. There are direct flights to Bogota from Miami and other US cities for about \$750.00
7. Registration Fee is \$250.00 which covers, local transportation to meetings and functions.
8. Hotel rooms for single person is \$135.00, double room \$150.00.
9. Please register & book your hotel room through SCBA as soon as possible. Space is limited.

10. At the convention there will be guest speakers on the following issues:  
Slick Hair Gene;  
Senepol influence to the dry tropics;  
When and how to use concentrating on grazing livestock systems;  
Invitro Fertilization;  
Transfer and adaptation of New Zealand pastures for dairy and meat sector in Colombia;  
Performance for Performance Capability;

11. There will be elections for SCBA Directors

12. An amendment to the SCBA By-Laws approved by the SCBA BODs, and which will be circulated to the SCBA membership shortly, would provide a provision in the SCBA by-laws for a country with large numbers of Senepol cattle and SCBA members to elect/select a member of that country's SCBA members to be a “delegate” on the SCBA BODs with a vote. This amendment would increase the number of votes on the BODs but not change the method the existing 12 Directors is elected.

13. The convention is an excellent opportunity to renew friendships, meet new Senepol breeders from different parts of the world.

14. See Senepol cattle in a different environment, where “color” is not the deciding factor in the value of the animal.
